## PROJECTS

---

**Okhati App** — *React, Node, Express, Postgres SQL, Knex, Objection JS, Jest*

- Implemented a streamlined solution for social security fund claims.
- Implemented a credit note feature in the billing module, integrated QR payment functionality into the billing system.

**Feedmo** — *Turbo Repo, Next JS, Mongo DB, Auth JS, Radix UI, Tailwind, Vitest*

- Developed an open source project to help site owners collect user feedback with ease.
- Published a UI package in npm to integrate Feedmo with React JS projects.

**Swift** — *Next JS, My SQL, Drizzle ORM, Pusher JS, Radix UI, Tailwind*

- Developed a real time messaging app using Next js and Pusher js.
- Used My SQL to store data and Drizzle as ORM
